

We at Music School Inc would like the opportunity to present our unique "Rock'N Tots" program. Rock'N Tots is a brand new Pre-K music program designed to introduce your toddler to music. Created by experienced music instructors with the young child in mind, Rock N' Tots is a fun way to begin your child's musical education.

The teaching staff at Music School Inc. has years of experience teaching young children. Many of our teachers have attended some of the top universities in the country. Our teachers provide lessons plans that meet National Content and Achievement Standards for Pre-K learning.

Music School Inc. believes that music is an art form that is meant to be performed. "Rock'N Tots" was created to introduce young children to music and to give them the opportunity to express themselves through musical performance. We believe that through this experience, children will gain a basic understanding of music and also develop self confidence, motor coordination, and social skills through their interaction with other Rock'N Tots students.

We are currently providing music education classes to some of the top pre-k programs in New York State, making their curriculums even more successful.

The main objective of Rock'N Tots is to introduce young children (ages 2-5) to music and to prepare them for future music education. Each student will be taught by Music School Instructor, and will be exposed to many musical elements while interacting with other children. Properties of music that will be focused on will be Rhythm, Pitch, Dynamics, Singing, Tonality, and Movement in Music.

Music School Inc. is currently providing its Rock'N Tots programs in three different settings. We provide In-School programs, group classes, and private classes!

In-School programs offer preschools, community centers, camps, and day care centers with New York State certified music teachers that come to you! MSI also provides Rock'N Tots in a private group class setting.

The private Rock'N Tots class uses the same academic standards as our In-School Programs, but is held in our studios or in your home!

MSI also provides individual Rock'N Tots classes for families wishing to introduce their young children to music in a fun and exciting way! These classes are available in home.
